

Böttcher Ink Fountain Liner

The Böttcher ink fountain liner is a quality part that has been specifically designed to fit Heidelberg CPC ink dosage systems. This particular polyester foil substitutes the ink meter of the ductor roller. Its exact fold and precision cut result in quick problem free installation and accurate regulation of the ink zones during printing.

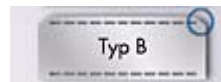

190 µm (Type A)

The following formats are currently available ex stock (100 pieces each per cardboard box):

<u>Machine Type</u>	<u>Part No.</u>
Quickmaster 46-DI	801802
Speedmaster 52	801803
MO	801804
Speedmaster 74	801805
Speedmaster 102	801806

190 µm (Type B)

The following formats are currently available ex stock (100 pieces each per cardboard box):

<u>Machine Type</u>	<u>Part No.</u>
Speedmaster 52	801830
Speedmaster 74	801831
Speedmaster 102	801832
