

Böttcherin 100-F

Cleaning Agent for Rollers and Blankets

Suitable for use in automatic cleaning units in newspaper presses, specifically designed for use in filtration systems.

Böttcherin 100-F is developed for recycling after having passed a filtration unit. For this Reason, a particular medium ensures that the emulsion from water and Böttcherin 100-F will totally separate after a short time.

- based on aliphatic hydrocarbons
- ohigh flash point, therefore easier storage
- stemporarily water miscible, free of aromatics, corrosion inhibited
- increased cleaning effect
- 🔇 due to highly effective emulsifying system, excellent for removing paper dust
- designed for use in filtration systems, effective particularly in newspaper printing
- very low evaporation and high washing performance, non-polluting
- VOC-free

Do not contaminate with white spirit or other washes or press room chemicals, if using in filtration systems. Use pre-filtering of return waste if excessive paper is dust present. For effective filtration, ensure minimum environment temperature is above 20 °C.

Regularly clean the circulation systems to reduce algae build up. Use BöttcherPro Calcit as a re-hardener for RO and soft water.

Böttcherin 100-F is approved by the manufacturers Heidelberg, manroland, Koenig & Bauer, Oxy-Dry, WIFAG Technotrans and Betz for use in their machines.

- 20 litre can
- 200 litre barrel
- 1000 litre container

Böttcherin 100-F is classified and marked in accordance with EC - Directive 1999/45/EC - in its latest version. Böttcherin 100-F is not a dangerous good in the sense of national and international transport regulations.
