Dampening Roller
Mixed Mode Printing

- Form Dampening Roller
- Distributor dampening roller (contactless dampening systems)

Application

- Very good dampening properties
- Good resistance to chemically extremely varying UV inks and conventional oil-based printing inks
- Very good geometrical and hardness stabilities
- High ageing resistance

Features

- Complimentary resistance test of inks and washing agents is recommended
- OEM compound in new press installations of Goss and MAN Roland
- Custom-made development for the use as dampening roller in UV mixed mode printing

Note

- Start-up with UV inks is possible. No „running-in“ with conventional inks is required
- Stable dampening
- Reduced expenditure for roller setting
- Good washability
- Stable print process
