

# BöttcherPro Antiskin

## Anti-Skin for Pump Sprayer

---

BöttcherPro Antiskin inhibits the drying of ink in used ink tins and on inking units during machine stops, preventing skin formation.

*Application*

- 
- prevents premature oxidation drying of ink
  - flash point > 62 °C
  - slow evaporation
  - long term effective
  - attacks neither rollers nor plates
  - no aromatics or CFC's

*Features*

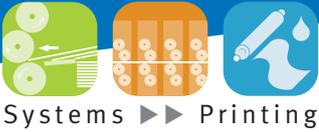

Shake before use!

BöttcherPro Antiskin is applied via a pump spray bottle. It is sprayed on the surface of ink. Only a short spray application is needed, but ensure an even coverage of the inking system.

*Note*

Do not store at temperatures below -5 °C.

1 litre bottle

Package

BöttcherPro Antiskin is classified and marked in accordance with EC-Directive 1999/45/EC - in its latest version. BöttcherPro Antiskin is not a dangerous good in the sense of national and international transport regulations.
