

Böttcherin C-29

Cleaning Agent for Rollers and Blankets

Cleaning agent for cleaning of rollers and blankets. It is suitable for both manual cleaning and use in automatic washing systems in both sheet-fed and coldset web offset presses.

Application

- based on aliphatic hydrocarbons
- flash point > 100 °C
- water miscible, free of aromatics, corrosion inhibited
- very good cleaning power
- very slow evaporation
- spontaneously emulsifying with water
- for manual cleaning of newspaper presses it should be mixed with water (water / Böttcherin 2 : 1)
- no build-up of drops or stripes on blanket and roller
- low viscosity, no slipping of ink rollers
- compatible to materials in the press
- VOC free (according to VOC guidelines of Switzerland as well)

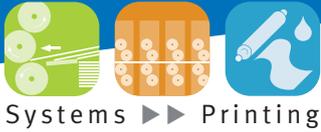

Features

Because of slow evaporation, we recommend setting the washing system to optimise the cleaning cycle and Böttcherin C-29 performance. In case of manual cleaning, use Böttcherin C-29 undiluted. Apply the wash to the blanket or roller, then finally rinse with water until all ink and cleaning agent residues have been removed.

Follow the automatic washing system manufacturers' operating instructions. If manual cleaning with a hand rag, wear protective gloves during application, follow all press safety instructions. Böttcherin C-29 is approved by the manufacturers Heidelberg, manroland, Koenig & Bauer and Baldwin for use in their machines.

Note

- 20 liter can
- 200 liter drum
- 1000 liter container

Package

Böttcherin C-29 is classified and marked in accordance with EC - Directive 1999/45/EC - in its latest version. Böttcherin C-29 is not a dangerous good in the sense of national and international transport regulations.
