

# Böttcherin Offset-UV

## Wash for Roller and Blankets in UV

It is suitable for manual cleaning and in automatic cleaning systems in UV printing.

*Application*

- flash point > 80 °C
- completely water miscible, free of aromatics, corrosion inhibited
- high cleaning power
- slow evaporation
- economical in use
- good chemical compatibility with UV resistant rubber rollers and blankets
- not suitable for conventional roller qualities
- may attack non baked positive plates

*Features*

We recommend setting the washing system to optimise the cleaning cycle and Böttcherin Offset-UV performance. In case of manual cleaning, use Böttcherin Offset-UV undiluted. Apply the wash to the blanket or roller, then finally rinse with water until all ink and cleaning agent residues have been removed.

Follow the automatic washing system manufacturers' operating instructions. If manual cleaning with a hand rag, wear protective gloves during application, follow all press safety instructions.

*Note*

Böttcherin Offset-UV is approved by the manufacturers Heidelberg and manroland for use in their machines.

- 20 litre can
- 200 litre drum
- 1000 litre container

*Package*

Böttcherin Offset-UV is classified according to EC-Directive 1999/45/EC - in its latest version and does not need to be marked.

*Marking*
